Re: High School Athletics Physicals as a Fundraiser

Dear Parents,

Utilizing high school athletic physicals as a fundraiser may be a bit of a new concept for many of you so I wanted to take a quick moment and describe the process. For many years RehabAuthority Physical Therapy has assisted local high schools and junior highs in fund raising by providing high quality physicals that far exceed the basic requirements provided by the state athletic commission.

On August 2nd, from 5:00-8:00 p.m. we will have local physicians and 8 physical therapists volunteering their time at the Cole Valley Christian High School gym to provide physicals for all athletes for the upcoming 2016-2017 sports seasons.

The cost of the physical is \$20 and 100% of the funds will be donated back to the Cole Valley Athletics Department. We have often raised over \$2,000 each session for local high schools in the past. This is an absolute no-brainer as the kids require a physical every 2 years anyway. Last year we were able to make a nice contribution back to the Cole Valley athletic department of approximately \$1,800. Our goal in this second year is to generate over \$2,500!

If you have any questions or concerns please feel free to contact me at any time. I look forward to seeing you on August 2nd from 5:00-8:00.

Sincerely,

Galen Danielson PT, DPT
